Something

Everyday Sunday

So, now you're telling me something
Time to find what's wrong and what's right
Cant keep going, doing this nothing
Gotta fill this void inside
So, now the pressure keeps moving
Its taking up the inside
Why does it want to haunt me
Its time to come alive
CHORUS
Its like I never knew You
But then You came around
Im gonna push it harder
Cause then I found You
In time you decide that you don't like the truth
But it never wanted life to deal with you
So decide if these burdens are too hard to bear
Or if the cross is something less than what you care
CHORUS
So, now you're telling me something
Time to find what's wrong and what's right
Cant keep going, doing this nothing
Gotta fill this void inside
So, now the pressure keeps moving
Its taking up the inside
Why does it want to haunt me
Its time to come alive
CHORUS
