

## Natural Order

### Everyone Dies In Utah

I was born a mortal  
So go ahead and look down on me  
Maybe one day I'll have everything  
And I will fit the perfect circle you would want it to be  
Or maybe I won't change a bit  
And that will be just fine cause it will make you sick

Step back into reality  
This world is lost, a tragedy  
We're lost yeah we're lost  
But we'll soon be found  
Waiting for the answers  
To come around

Be a wolf  
Wolves never lose sleep  
From the opinions of sheep  
You sit there with your eyes around my neck

But one thing I will never get  
What makes you so damn perfect  
So damn perfect

Step back into reality  
This world is lost, a tragedy  
We're lost yeah we're lost  
But we'll soon be found  
Waiting for the answers  
To come around

To come around  
Show me the answer  
Show me the way  
Shed some light to end this pain  
Have we forgotten  
Have we forgotten  
What it means to be anyone you want  
What it means to be human from the start  
We are human
