

Way Back When

Everyone Dies In Utah

For way too long I let you get the best of me
This hell you put me through
Won't ever let me breathe
But now you have no power here
Now you have no power here

These sleepless nights I spent alone
Have brought me closer to you
Seeing all my demons come to life
Fictions stranger than truth

It's hard for me to tell exactly what I hear are lies
When every word you said I had to scrutinize
Eyes so dark they couldn't see the light
Sight so lost you've gone so cold
So lost you've gone so cold

These sleepless nights I spent alone
Have brought me closer to you
Seeing all my demons come to life

Fictions stranger than truth

And I want to feel the truth (The truth)
You'll never break me
Keep your opinions to yourself
Your demon's on your tail
It wants you
Peace is at your fingertips
Yesterday is gone
Today is where we belong (Where we belong)
Don't let the ghost of the past haunt you
Cause now you have the power here
Now you have the power here

These sleepless nights I spent alone
Have brought me closer to you
Seeing all my demons come to life
Fictions stranger than truth
(Than truth)
(Than ah f it)
