

Seen across the field, thru the memories left behind
Eyes full of promises, faith in between the lines
Paths entwined in the snow, your footsteps behind mine
An adventure unfolds, tasks and roles we assign

Look out,
Don't play their game
It's set and you will lose
But I watch over you

Never say we don't have the trust in the two of us
We were sealed with blood
You call me when the world is falling around you
In the time of need you'll be there for me
When all I need is your sympathy
If the road leads me to pitch black darkness
You'll find me

Time walks on and on, names carved in the yard tree
Our form of contract, bound with trust and loyalty
Cut of the knife to run the blood, a handshake to make it true
Unbroken bond, now we can come through

Watch out,
Don't take the blame
That's what they try to do
I watch over you

Never say we don't have the trust in the two of us
We were sealed with blood
You call me when the world is falling around you
In the time of need you'll be there for me
When all I need is your sympathy
If the road leads me to pitch black darkness
You'll find me
