

## Neck Brace

## Excision

Huh, get it  
A gargantuan plant  
Impervious to any damage  
Colliding with fuel and fire  
Until entire globe savage  
Massive we always tell 'em  
We blazin' they cerebellum  
Artistic but we arsonists  
Pyrotechnical felons

Let the world go up in flames  
Shake the fucking rafters  
Bring the heat and bring the pain  
Then call your chiropractor  
Blazin' down the set  
Bring it rugged in this fucking place  
Melt your face, you'll be leaving in a neck brace

(When I drop)

Melt your face, you'll be leaving in a neck brace

(When I drop)

Melt your face, you'll be leaving in a neck brace
