

# Suicide Overdose

Exciter

It lives in the blackened night  
It lurks in the valley of the lost  
A voice is heard from the past  
It's coming back to claim its freedom  
Tremors fall from the souls  
Chains are broken beckoning call  
Life will end, all sins will crawl  
Stop the torture blood must flow

OVERDOSE

The key lies under your skin  
Your thoughts are governed by the Ruler  
The Ruler dies - you take revenge  
Suicide - your death contends  
Shadows of the dark call your name  
Angels of death can't relent  
Desperate cries to kill yourself  
Peace be with you... see you again
