

Goregasm

Exhumed

Your scrotum pustulates, as papules seep and weep and reek
Pyosified testicles, now covered with boils and sores and scabs
Your crotch leaking sanguined pus, ulcerous lesions erupt and o
oze stale serum
Penile pustule extrusion, your loins a mass of carbuncles

Excoriate your genitals, gouge and maim
Hack at the penis, slash and rend
Emasculated and torn, dismembered and cut
Your groin mangled as you orgasm, thrashing as you cum

Scrotal sac leaking as arousal is peaking
Your loins devoured, your genitals scoured
Sores erupt from the lacerated stump
Genitals now sludge as you ejaculate pus
