

## Vagitarian II

Exhumed

Admiring the syphilitic visage, Of the pustule ridden genitals  
that I adore,  
Oozing sebum and pus dribbling on the labia, Leaves me panting  
for more...  
Vaginal excrements fume and funk, The stench of festering menst  
rual discharge,  
The wafting odor tortues my nasal passage, The glistening cunt  
wet with  
blood... A crust ridden musty flap of lust suffering, From seve  
re  
dermatological disorder, The sanguined slit lined with papules,  
And genital  
warts along its fleshy borders... Licking the sickening twat, T  
he foul stench  
of the blistering crotch, Drinking the menstruated slop, Deligh  
t in each  
pustular drop... Passing blood clots, Eating crotch rot, Septic  
blood and pus,  
Consume the runny crust, Urine flows out of the slit, Piss wash  
es over the  
clit, Taste the blood and piss, Nothing compares to this... My  
face fully  
buried within, The pubic mound of grime and warts, Voraciously  
lapping up  
excrements of, Every sordid type and nauseating sort... The atr  
ocious  
nauseating odour, Proves too strong to resist in the end, The n  
auseating fumes  
overwhelm me, As I vomit into the moist pungent gash... Regurgi  
tate onto the  
cunt, Puke on the gore ridden slut, Drunk off the urine flow, I  
bathe in the  
afterglow...
