Shout Louder

Exilia

For everything I never had
I made some dreadlocks in my hair
For every word I should have said
"without you I feel better"
For everytime I should have stayed
"I'm sorry but it's not my way"
For every night I should have slept
I drem well without a bed
Should I do the right things?
Should I do what I think?
Shout louder when I shout
Run faster when I run
Let me live out every day like it was the last one
If,if you don't understand
Take me as I am
Let me live out every day like it was the last one
For every day I didn't work
I got a job singing this song
For every rule I shouldn't break,If I can,well I do
For every friend who was no friend
I got my dog
For every lesson that I missed
I got it myself
Lyrics
Should I do the right things?
Should I do what I think?
Shout louder when I shout
Run faster when I run
Let me live out every day like it was the last one
If,if you don't understand
Take me as I am
Let me live out every day like it was the last one
Shout
Should I take my own away
Should I take my own away
Shout louder when I shout
Run faster when I run
Let me live out every day like it was the last one
If,if you don't understand
Take me as I am
Let me live out every day like it was the last one
