

I break the rules and Im alone  
Intoxicated by your sacred words  
And Im nothing,  
She took that step she never knew  
No dreams came true and now she is gone  
And Im nothing, Im nothing can do nothing in this tragedy  
Where are you,  
No answer Im lost in disaster  
I cross myself and tell you  
Im nothing once again  
Im nothing once again  
She died alone before her time  
A starseed lost in this world of mine  
Don't want to talk  
Don't want your love  
Its my conclusion in this spiral of words  
And Im nothing, Im nothing can do nothing in this tragedy  
Where are you,  
No answer Im lost in disaster  
I cross myself and tell you  
Im nothing once again  
Im nothing once again  
Last rites  
Candles  
I need  
An answer  
She danced  
She walked  
She Loved / she left  
This world  
And Im nothing, can do nothing, nothing in this tragedy  
(Chorus)
