

## Breathe Me In

Exotype

Breathe me in,  
I am the change that grows inside of you.  
We are one and the same, we have ourselves to blame,  
But there is nothing left for you to lose.

You know all my tactics  
Dispense with theatrics.  
Attack what you're after and  
Stack in your mattress.  
The past that is after us  
Creeps so disastrous.  
Cheat your defeat  
The deceit will come after us.  
Fight your design by encasing your fear  
Slight your designer as if he could hear.  
Patch all the cracks so the glass can be clear,  
Cuz it's my face you'll see when you look in the mirror.

I see the word looking at me, hoping for me to save us all.  
I feel the world piercing through me,  
And I'm willing to give it all.

Breathe me in,  
I am the change that grows inside of you.  
We are one and the same, we have have ourselves to blame,  
And there is nothing left for you to lose.  
Left to lose  
Left to lose.

There's nothing left.  
There's nothing left.  
Come on.

I feel the world looking at me, hoping for me to save us all.

Breathe me in.  
I am the change that grows inside of you.  
We are one and the same, you have yourself to blame,  
And there is nothing left for you to lose.  
Left to lose.  
Left to lose.

There's nothing left.  
There's nothing left.
