

You are nothing but a 'no body.'
A lost soul, no one gives a shit.
You are nothing but a narcissistic fuck.
Your only talent is sucking dick.

Did you think you could hide
Behind that screen forever?

You know everything about nothing, so
There is nothing left to say.
You will always be someone to no one,
And that's the way things have to stay.

You think you know everything.
You know nothing.
