Attack

Exploited

A

Sitting in my room at night Feeling half dead A dog two blocks away or more Is howling in my head My mind is getting dangerous My body feels like lead Icy horrors hit me send shivers to my head

H F#

Attack attack You can't fight back Attack attack An enemy you can't find

An enemy you can't find

Throat can't talk legs won't walk Rooted am deaf and dumb Terror rising in my gut Makes my brain go numb Something's creeping round the door Something filled with threat I bite a hole right through my lip My back is trickling sweat

I taste blood inside my mouth Am choking on the bile I want to burst right out of here I want to run a mile The sickenss of the city Is spreading thru the night Someone else is screaming To be let out for the night
