

Eyes of the Vulture

Exploited

Death as seen through a vultures eyes
Four hundred feet above a sunlit sky
Doesn't have to kill to stay alive
Man the animal is it's provider

See the darkened Lebanese skies
See the darkened
See the darkened
See the darkened Lebanese skies

See the darkened Lebanese skies

Vultures picks on those who died
Bloated bodies stench the air
While Israel soldiers stand and stare

See the darkened Lebanese skies
See the darkened
See the darkened
See the darkened Lebanese skies

Man the animal is it's provider
And it doesn't give a damn why man kill man
And it never seeks no answers as long as there corpses
All supplied by political gangster's

See the darkened Lebanese skies
See the darkened
See the darkened
See the darkened Lebanese skies
