I always there for you You're never fucking there for me That's the way it seems to be And the way it's always been

I never changed
I never changed
I never changed
Never never never never never changed

I was always there for you Always first in the queue I used to do anything And everything just for you

I never changed
I never changed
I never changed
Never never never never never changed

I'm still fucking here for you No matter what you say or do Cos that's the way i've always been And you know that's fucking true

I never changed
I never changed
I never changed
Never never never never never changed
