Show Us You Care

Extreme Noise Terror

```
You say we won't change nothing
But at least we're fucking trying
Say we're always moaning
But at least we fucking care
Say we should be happy
We've tried to but we can't
Say we should see sense
But we already fuckin have

Use your shit filled minds
And show you fucking care

You don't care about the rich
As long as you're not poor
Don't care about vivisection
'You cannot change the law'
Don't care about the police force
Because they haven't beaten up you
Don't care about the starving
Because it's nothing new
```
