

We The Helpless

Extreme Noise Terror

Comfortably placed within your four walls of tranquility
Braindead and oblivious to the carnage of life
You are the carcass of society
Void of thought intelligent reasoning and care

You are the reason of millions of animals are slaughter
People starve
Woman are raped
Children are sexually abused
People are beaten in South Africa

This is no newspaper headline this is reality
All because you are too scared to show emotion
You self righteous shit...show you fucking care
Stand up, they are your problem too
Together we can bring about a change
