

There Will Always Be Blood

Exumer

Torture drives insane
Praise the lord of vain
Disease, rage and death
Forces dark they kept
Realm of hate and lies
The world wants to die
Breed and you will see
No hope for you or me

Bright fire tonight
Screams and I
Harness this light
War inside

Derelict once we're built for tearing
Let us lose and you'll be praying
Haunt your dreams meant to see
Hell on earth for eternity

We are out for blood want this sacrifice
We are out for blood with evil in our hearts
We are out for blood want this sacrificife
We are out for blood with Satan on our side

Passive you set out
Leave this life of doubt
Your spirit fades way
Ravished by the prey
Realm of hate and lies
The world wants to die
Breed and you will see
No hope for you or me

Bright fire tonight
Screams and I
Harness this light
War inside

We are out for blood want this sacrifice
We are out for blood with evil in our hearts
We are out for blood want this sacrificife
We are out for blood with Satan on our side
