Before I hit the ground Some assistance here is welcome I could of used it yesterday and through the years I've stumbled no longer see the light (I long to see the light)

I can weather the storm but can I tear down the walls around me?

I wanna feel alive today
I don't wanna waste my life away
No
Feels like I'm falling
I wanna push the fear away
I don't wanna live my life this way
No
Feels like I'm falling
Falling down
Right before I hit the ground

My newfound strength unyeilding it battles back the pouring rain The ground beneath me crumbles No longer see the light

I can weather the storm but can I tear down the walls around $\ensuremath{\mathsf{me}}$

I wanna feel alive today
I don't wanna waste my life away
No
Feels like I'm falling
I wanna push the fear away
I don't wanna live my life this way
No
Feels like I'm falling
Falling down

I'm not looking for forgiveness
I don't need your sympathy
I've already lost it all

I wanna feel alive today
I don't wanna waste my life away
No
Feels like I'm falling
I wanna push the fear away
I don't wanna live my life this way
No
Feels like I'm falling
Falling down
