

Revolution

Eye Empire

See, beleive, the need for a change is coming
Sow the seeds of heartache
You better believe that we can see a change is coming
Sow the seeds of heartache
Our boat is leaving and the tide is coming in.
There's no escaping as it seems
Our luck is coming to an end

The stage is set for a revolution
A Revolution of man (better get ready)
To save what's left we need revolution
A revolution of man. This world is coming to an end.

Free the need to bleed for the broken system
Torn away from heartache
You know that it's we who need to see
The change that's coming
Liberty is justice

Our boat is leaving and the tide is coming in.
There's no escaping as it seems
Our luck is coming to an end
