

Dream Away

F. R. David

Dream away dream a life time
As the world is passing by
Baby try can't you see love
Could be hiding in a smile

Don't you wanna play a game
Take a second chance
I know you can dance I know you dance
Set your feelings free your passions
Flow in fantasy
The horizon's clear life is coming so near

Dream away dream a life time
As the world is passing by
Baby try can't you see love
Could be hiding in a smile

Listen to your heart it's saying
You can never lose
Love will always last
It will always last

Don't you waste a precious time
Don't hold back the love
That you keep inside
Turn it to the light

Dream away dream a life time
As the world is passing by
