

# Feedback Delay

F. R. David

I've told you all that I've got on my mind  
Your answer's lagging far behind  
Feedback delay getting in our way  
Can't hear you say you're gonna stay  
Around... and give your love  
Won't you say you'll stay?

I'm sending love I feel deep inside  
You keep me waiting for your reply  
Feedback delay getting in our way  
Come on and say today's the day  
You'll stay... and give your love  
Won't you say you'll stay?

[Bridge]

Your station doesn't come in clear  
Can't hear the words you'll be mine  
Reception's cloudy though you're right here  
Must be static jamming our line  
Signal's awful weak  
Baby won't you speak up

[Chorus]

Feedback delay getting in our way  
Can't hear you say you're gonna stay  
Feedback delay getting in our way  
Come on and say today's the day  
You'll stay... and give your love  
Won't you say you'll stay?

It's like an early bird DJ  
I'm telling you all of my dreams  
But you're tuned in my matinee  
Must I change my directional dream?  
Signal's getting in...  
Oh baby won't you speak up?

[Chorus]

Feedback delay getting in our way  
Can't hear you say you're gonna stay  
Feedback delay getting in our way  
Come on and say today's the day

Feedback delay getting in our way  
Can't hear you say you're gonna stay  
Feedback delay getting in our way  
Come on and say today's the day

Feedback delay getting in our way  
Can't hear you say you're gonna stay  
Feedback delay getting in our way  
Come on and say today's the day

Feedback delay getting in our way  
Can't hear you say you're gonna stay  
Feedback delay getting in our way  
Come on and say today's the day

Feedback delay getting in our way  
Can't hear you say you're gonna stay  
Feedback delay getting in our way  
Come on and say today's the day

Feedback delay getting in our way  
Can't hear you say you're gonna stay  
Feedback delay getting in our way  
Come on and say today's the day

Feedback delay getting in our way  
Can't hear you say you're gonna stay
