

# Sing In My Life

F. R. David

Oh I love you more  
You made my heart an open door  
I used to see things  
With the dark side of my mind  
So blue, Blue is the sky  
It's funny with you  
All seems so clear having you near  
Makes me feel alright

You sing in my life  
You write the music I play  
Shine on me day after day  
I'm so glad you came along my way  
I just know I will never tire

I finally found my own design  
It's been along time  
There is no fear  
But only love in my eyes  
So now, Now the song woman  
Goes in my right  
I was alone  
Deep in the need having you around

You sing in my life  
You write the music I play  
Shine on me day after day  
I'm so glad you came along my way  
I just know I will never tire

Baby never take your love away  
Baby never take your love away

Sing in my life

You sing in my life  
You write the music I play  
Shine on me day after day  
I'm so glad you came along my way  
I just know I will never tire

In my life

Sing in my life (my life, my life, my life)  
Sing in my life (my life, my life, my life)  
Sing in my life (my life, my life, my life)  
Sing in my life..
