

## Inside Out

Faber Drive

It was late when I went over to your house  
Unexpected, so I walked in unannounced  
You were right there, you were with him on the couch  
Can't believe you said "I love you" with that mouth  
I remember times so vividly  
We were drinking, we were talking, you and me  
Sun was rising soon as we fell asleep  
Now you're acting like I owe you sympathy  
I don't care if you're ashamed  
You're the only one to blame  
I don't wanna hear you say my name, my name

Inside out, I trusted  
Inside out, disgusted  
Inside out, I loved you  
Inside out, out, out, out

I should've known, I should have seen it in your eyes  
Should've seen the way you looked at other guys  
The hardest part is that I'm shocked with my surprise  
Sayonara, see you later, say goodbye  
I don't care if you're ashamed  
You're the only one to blame  
I don't wanna hear you say my name, my name

Inside out, I trusted  
Inside out, disgusted  
Inside out, I loved you  
Inside out, out, out, out

She was the sound  
She was the one that burned me down  
She was the gun  
She was the sword that cut me  
And I'm still bleeding  
I don't care if you're ashamed  
You're the only one to blame  
I don't wanna hear you say my name, my name

Inside out, I trusted  
Inside out, disgusted  
Inside out, I loved you  
Inside out, out, out, out  
Inside out, I trusted  
Inside out, disgusted  
Inside out, I loved you  
Inside out, out, out, out
