

Everything, Everyday, Everywhere

Fabulous

Same shit different day just riding through the city looking prettiest as usual
It's the same old thang got the name on the chain just to let them know who's who
And they know I've over here so they come and find me right after they lose you
For you niggas in the way we can let the guns say "excuse you"
At the end of the day we just trying find our way and I might be a come up
And baby you hitch a ride but you gotta know how to do more than how to keep a thump up
It's so incredible that it ain't edible but they know the cake's real
Yo I couldn't even say ask these other silicon niggas how being fake feel

Everyday is my day I'ma do it my way everyday
Everything about me, what they love about me everything
Everywhere that I be, feel VIP baby
And everybody's cool, but y'all just ain't me

Somebody better tell em that we in this bitch like an unborn baby
See we be everywhere, and they ain't never there, couldn't tell you where they be
And you already know you ain't gotta ask me you can see that everything is up
And I'm so bout my money you ain't talking about no money you ain't even gotta bring it up
And I hope you don't think me give a sugar honey iced tea or a middle finger up
I just stay sucker-free, leave the lames where they be, and I let my chips pringle up
Everybody calm down, there's enough to go around, you just gotta say how much you want
Don't know what you're looking for, unless it's a problem, I promise this ain't what you want

Everyday is my day I'ma do it my way everyday
Everything about me, what they love about me everything
Everywhere that I be, feel VIP baby
And everybody's cool but y'all just ain't me

Can you do me this favor, answer this question, y'all gon try who
See the shoes by Gucci, bag by Louie, the hating'll be by you
And I appreciate the love, thank the man above cause a nigga feel so blessed

And I ain't gonna stop, better get them red bulls, I don't give
these haters no rest

Everyday is my day I'ma do it my way everyday
Everything about me, what they love about me everything
Everywhere that I be, feel VIP baby
And everybody's cool, but y'all just ain't me
