

Another Summer Night

Fabrizio Faniello

The golden sand beneath my feet
There's music in the air
A guitar in my hand
I'm sure you understand, oh this is magic
No matter where the wind blows
I'll always think of you
Stay with me, young and free
We'll live in perfect harmony

Another Summer night
I'm by the ocean
Under the palm trees, you and I
Walking on the beach
Beneath the moonlight
Just like a dream that never dies
Never dies, never dies

Blue skies all around us
Feels like love is everywhere
Just a smile and our eyes
Will meet so we can feel a fire burning
A piece of heaven's all I need
Can never get enough
Million stars in the skies
With each moment passing by

Another Summer night
I'm by the ocean
Under the palm trees, you and I
Walking on the beach
Beneath the moonlight
Just like a dream that never dies
Never dies, never dies
