

# Did I Ever Tell You

Fabrizio Faniello

Your pretty face is there to haunt me  
All through the days and endless nights  
I feel your lips on mine so softly  
This time I know the moment's right  
To cherish love eternally.

Did I ever tell you  
You're my angel in paradise  
Did I ever tell you  
You're the guiding star  
That shines on me all the way

With all your warmth and understanding  
You took me straight up to the sky  
Showed me the way to new beginnings  
Inside my heart your love will stay  
I know you are the one for me.

Did I ever tell you  
You're my angel in paradise  
Did I ever tell you  
You're the guiding star  
That shines on me all the way

(Did I ever, did I ever tell you)  
You're my angel  
(Did I ever, did I ever tell you)  
You're my guiding star

(Did I ever, ever, ever tell you)  
Oh baby

Did I ever tell you  
You're my angel in paradise  
Did I ever tell you  
You're the guiding star  
That shines on me all the way

Did I ever tell you  
You're my angel in paradise  
Did I ever tell you  
You're the guiding star  
That shines on me all the way
