

The Sheep Look Up

Fad Gadget

This is the shadow of a great cloud
This is the flag of hate
Patriotism is the key word now
Here in this democratic state
And the sheep look up
As the sky falls down
Tumbling heavy to the sea
Follow my leader is all I can play now
The people want war 'cos war is for real
We can pull together with our common enemy
Hatred stimulates - it's infectious
And the sheep look up
As the sky falls down
Tumbling heavy to the sea
