

Face

Fade

Look in the mirror
There lies another in you
Laughing and smiling
"What's wrong with you ?"
Look there in the back
There lies another in you
Holding out his hands
Come with me to the other side

Different times
Different life
He comes out for you
Searching for the weakness for the pain and the tears

Nothing wrong will come out true
Heart is the only price to pay
If you have the will to say i will show you the way

Different times
Different life
He comes out for you
Searching for the weakness for the pain and the tears
Wishing will never do
Hold it inside you
Keep everything true
Search for the shadow in the light

Look inside the heart shaped box
Find the toy you're looking for

Searching for the weakness for the pain and the tear
Wishing will never do
Hold it inside you
Keep everything true
Search for the shadow in the light

He comes out for you
