

Let it Go

Fade

Wake up in a frozen sweat
Panic tearing your insides in two
Terrified of repeating the past
Choking at the moment of truth

All the walls are closing in
Getting crushed once again
Thinking of the life that could have been

Let it Go
Before it takes your soul
You've got to let it go

Wasted chances, precious days
You swore to never make the same mistake
Living in frustration constantly
Getting tougher just to keep breathing

Let it Go
Before it takes your soul
You've got to let it go
Bury these dead and cold regrets

Let go, let go, let go
There's so much more than this
Let go, let go, let go
Stop torturing yourself this way
Find the strength that lives in you
Find the strength that lives in you

Let it Go
Reach down into your soul
You've got to let it go
Bury these dead and cold regrets

Let it go - Life is waiting there for you
Let it go - If you would alter your perspective
Let it go - Before it takes away your soul
Let it go - I'm begging you to let it go
