

## Solar Eyes

Failure

I know you're giving in  
I watch you turn into another  
A new code infects your brain  
As you lose your will to dream  
One more balloon without a tether

Because we can bleed the time  
That lies shaken from the sky  
We see through solar eyes, solar eyes

Oh no, solar eclipse of your soul  
But everyone gives up and folds  
I never believed it was gold  
We know so many way to leave tracks  
I'm so sick of painting it black  
I'm so sick of holding it back

Calm voice will make me blind  
It's your map that draws the lines between us  
Thick smoke falling from your mouth  
In your eyes the world is passing out  
Crushing the forest all around us

Oh no, there's too many leaves in your way  
I'll never believe what you say  
You never believed anyway  
We know so many ways to get lost  
I want to find you at the top  
I know you're still holding it back  
I see a total eclipse of your soul  
But everyone gives up and folds  
I never believed it was gold  
You shine straight out of the cosmical lie  
I'm so sick of painting it black  
I'm so sick of holding it back

Cause we can bleed the time  
That lies shaken from the sky  
We see through solar eyes, solar eyes  
Cause we can bleed the time  
That lies shaken from the sky  
We see through solar eyes, solar eyes
