

# Rivers Of Love

Fair Warning

There she stands in the rain -  
In the neon light  
Cast away on the oceans -  
Of the night  
Left out in the cold  
Of the grey morning light  
Another day of heartache  
Right before her eyes  
And she cries

Soaked up by the crowd -  
Just a face in time  
I'm turning back like a stranger -  
To this life of mine  
But still her eyes -  
They are haunting my mind  
Is this the life i wanted -  
A don't care paradise

And the rivers of love - so close  
Such a little step away -  
Are we really just too blind to see  
Do we run through this life - blindfold  
Turning circles in the dark - never free -  
Free

Just a face in the crowd -  
That you've seen before  
Reaching out through the darkness -  
We don't see no more  
But the loneliness around us -  
That we've learned to ignore  
It's waiting in the backyard -  
Knocking at our door

And the rivers of love - so close  
Such a little step away -  
Are we really just too blind to see  
Do we run through this life - blindfold  
As we're searching for the light -  
To be free

And the rivers of love - so close  
Such a little step away -  
Are we really just too blind to see  
Do we run through this life - blindfold  
As we're searching for the light -  
To be free

Rivers of love - flow through my heart  
Open up these eyes -  
Show me how we're meant to be  
Rivers of love - tear these chains apart  
Set my soul on fire - set me free
