

Ever Wonder

Faith Evans

(feat. Mario Winans)

Baby, if I just been a little different lately.
But I wanna understand you so much more.
Open the door. anything just tell me.
Open up and say it baby.

Lately, I've been tryin to keep my distance crazy.
It's not what I expected at first
But now I undersatnad you gotta be a man.
And now it so clear to me so you can keep it real with me.

You ever wondered what makes a woman cry
you ever wondered why sometimes you make me cry
you ever wondered what makes a woman smile
its just the little things, you do to make me smile

Maybe, we jumped into this situation to early
But it's something that our bodies can't ignore
Now you want more but I think I'm ready
Just open up and say it baby

Baby, not to mention that you got me feelin' crazy
Everytime you walk through my door
My emotions won't let me say no
And now I'm wonderin' if after this you'll want me more

You see I'm feelin' you
You know I'm wantin' to
Put all my trust in you
'cause aint no guarantee

And I'm so glad you do
I feel the same way too
All we gotta do is keep communicating

[Chorus 2x]
