

Paradise

Faith Evans

I know a place we can go, we can live in the sunshine
Don't you wanna live in paradise?
Just free your mind, free yourself 'cause we're living the good life
Every day's the best day of your life

Sometimes I know you really wanna get away
From all the stress that life can bring
I know I'm not the only one that feels like that
Sometimes it's just that way

We all need some peace of mind
We all need some peace of mind
Happiness ain't hard to find
Your happiness ain't so hard to find, yeah yeah

I know a place we can go, we can live in the sunshine
Don't you wanna live in paradise?
Just free your mind, free yourself 'cause we're living the good life
Every day's the best day of your life

Sometimes I know it's hard not to complain
About the things you're going through
But you can't grow if you don't have some rain
Remember Heaven has a plan for you

You can leave your cares behind
You can leave your cares behind
Happiness ain't hard to find
Your happiness ain't so hard to find

I know a place we can go, we can live in the sunshine
Don't you wanna live in paradise?
Just free your mind, free yourself 'cause we're living the good life
Every day's the best day of your life
I know a place we can go, we can live in the sunshine
Don't you wanna live in paradise?
Just free your mind, free yourself 'cause we're living the good life
Every day's the best day of your life
(I think I witness up in here, come on and help me, y'all)

Giving you vibrations after celebration
Everybody gather 'round, just don't tamper with my sound
For the other nations, all of those creations
And people of the world today, music takes the pain away

Something deep down, down on the inside
It's telling me to go 'head, go 'head, go 'head
There'll be hard times and disappointments
But one day there will be paradise

I know a place we can go, we can live in the sunshine
Don't you wanna live in paradise?
Just free your mind, free yourself 'cause we're living the good life
Every day's the best day of your life
I know a place we can go, we can live in the sunshine
Don't you wanna live in paradise?
Just free your mind, free yourself 'cause we're living the good life

Every day's the best day of your life

I'm living the, living the, living the good life

Oh yeah yeah, I'm living the, living the, living the good life
