

## Six O'Clock

Faktion

Six o'clock and I'll be ready  
Lesson learned, my hands are steady  
One more day, and I'll be home  
Living with regret of what I've done  
How could I waste what we have on her  
We can't go out that way

I go to sleep by your side almost every night  
I crave the feeling of your skin,  
As it presses against mine  
Now that I'm so far from home  
I know you're sleeping alone  
You're hoping that i remember  
What you mean to me

I've always known where I was heading  
Forgetting the fact that  
You're not ready  
It's six o'clock, I'm all alone  
Missing all I've left at home  
How could I waste what we have on her  
We can't go out that way  
I'm lost without you  
I remember what you mean to me
