

Bitter Mind

Family of the Year

Everything I ever really loved
Scared me so much I'd show up drunk
What if I got hurt and my feelings wouldn't work
I'm growing up in time with a bitter mind

I've been on this lonely road a while
I don't know why I've been acting like a child
What have I become I don't trust anyone
I'm growing up in time with a bitter mind
I'm growing up in time with a bitter mind

Tell me now brother what should I do
I'm running out of time, I've got nothing left to lose
Nothing lasts forever, things will get so much better
Oh

Every time I see you out
I'm jealous of the love you have now
I'm letting go of things like beautiful dreams
And growing up in time with a bitter mind

So tell me now brother what should I do
I'm running out of time, I've got nothing left to lose
Nothing lasts forever, things will get so much better
Oh, what should I do
I know I'm gonna die, I've got nothing left to lose
Nothing lasts forever, things will get so much better
Oh, I've got nothing left to lose
Oh, I've got nothing left to lose

So tell me now brother what should I do
I'm running out of time, I've got nothing left to lose
Nothing lasts forever, things will get so much better
Oh, what should I do
I see the other side, I've got nothing left to lose
Nothing lasts forever, things will get so much better
Oh, I've got nothing left to lose
Oh, I've got nothing left to lose
