

Carry Me

Family of the Year

When you know it's not okay
and you know you're not to blame
Look inside your mind and try to find
this heart of mine

And you know it's just a dream
one you wished you'd never seen
Open up your eyes, it's still dark outside
Alone again tonight

You got the smile I wanna see
You got the heart to carry me
You got the smile I wanna see
You got the heart to carry me

And you try but it's too much
And hurting yourself is not enough
Think of everyone who has it worse than you
There is no curse on you
Think of everyone who has it worse than you
There is no curse on you

You got the smile I wanna see
You got the heart to carry me
You got the smile I wanna see
You got the heart to carry me

Won't you realize it's not that bad
And a chance to love is all you ever have
Tell him about your dream and what you saw in him
It's just a myth and no-one gives a shit
Tell him about your dream and what you saw in him
It's just a myth and no-one gives a shit

You got the smile I wanna see
You got the heart to carry me
You got the smile I wanna see
You got the heart to carry me

You got the smile I wanna see
You got the heart to carry me
You got the smile I wanna see
You got the heart to carry me

You got the smile I wanna see
You got the heart to carry me
You got the smile I wanna see
You got the heart to carry me

You got the smile I wanna see
You got the heart to carry me
You got the smile I wanna see
You got the heart to carry me

You got the smile I wanna see
You got the heart to carry me
You got the smile I wanna see

You got the heart to carry me
