

## Give a Little

### Family of the Year

You gotta be a little smarter  
Try a little bit harder  
You gotta do what you can  
To get on down the line  
You gotta dig a little deeper  
And push a little bit further  
You gotta do what you can  
And not be left behind  
You gotta do it for yourself  
And I will too  
You gotta put it all behind you  
Leave nothing to remind you  
You got to put it all away  
To get out what's inside  
Be honest with yourself  
And I will too  
You gotta do it for yourself  
And I will too  
You gotta speak a little louder  
You gotta be a little prouder  
Cause you know that someday  
Your bones will be in the ground

The grass is a whole lot greener  
On the other side  
I left a part of myself  
When I left it all behind  
Hungry gather ground  
It's not what I've been reading  
But what I've been needing  
You and I we came to feel all right  
Trying to get on down the line

You gotta do it for yourself  
And I will too  
Be honest with yourself  
And I will too  
You gotta take a little love  
And I will too  
You gotta take a little love  
If I will too

The grass is a whole lot greener  
On the other side  
I left a part of myself  
When I left it all behind  
Hungry gather ground

It's not what I've been reading  
But what I've been needing  
Feeling it out came to feel alright  
Trying to get on down the line  
You gotta do it for yourself  
And I will too
