

Hey Kid

Family of the Year

Hey kid, whats the deal?
Everybody's worried about you
You don't call, you're dropping the ball
And everybody's worried about you

Stay out late, you never sleep
Wonderin' what drugs you're on
You look sad, you look tired
Where's all your money gone?

Hey kid, whats the deal?
Everybody's worried about you
You don't call, you're dropping the ball
And everybody's worried about you

Hey kid (Hey kid)
What's the deal (What's the deal)
Everybody's worried about you (About you)
You keep lying,
Well keep trying
Cause everybody's worried about you

I can relate, I didn't know my fate
And I know it sucks she's gone
I know the pain will never go away
You can't turn it off and on

Hey kid, whats the deal?
Everybody's worried about you
You don't call, you're dropping the ball
And everybody's worried about you

Stay out late, you never sleep
Wonderin' what drugs you're on
You look sad, you look tired
Where's all your money gone?

Hey kid, whats the deal?
Everybody's worried about you
You don't call, you're dropping the ball
And everybody's worried about you
