

Hold Me Down

Family of the Year

She was a cowboy or a cowgirl
I was freezing up in a man's world
There was a lone drone sounded like DayGlo
Breathing my lonely dreaming you won't go

I've been waiting for someone to hold me
I've been waiting for someone to hold me down

And I won't stop running round
'Til I find myself in a one horse town
Sunlit bathed in the Hollywood hills
Down a dead end street where I can't be found

Won't stop running now
'Til I find myself in a one horse town
Sunlit bathed in the Hollywood hills
Down a dead end street where I can't be found

I saw your break lights staying up late night
Sleepy eyes open during the blackout
There was a lone drone sounded like DayGlo
Breathing my lonely dreaming you won't go

I've been waiting for someone to hold me
I've been waiting for someone to hold me down

And I won't stop running round
'Til I find myself in a one horse town
Sunlit bathed in the Hollywood hills
Down a dead end street where I can't be found

Won't stop running now
'Til I find myself in a one horse town
Sunlit bathed in the Hollywood hills
Down a dead end street where I can't be found

(Someone to hold me down)
You've been acting so high above me
(Someone to hold me down)
I've been waiting for someone to hold me
Put me down to keep me around

And I won't stop running round
'Til I find myself in a one horse town
Sunlit bathed in the Hollywood hills
Down a dead end street where I can't be found

I won't stop running now
'Til I find myself in a one horse town
Sunlit bathed in the Hollywood hills
Down a dead end street where I can't be found

And I won't stop running round
'Til I find myself in a one horse town
Sunlit bathed in the Hollywood hills
Down a dead end street where I can't be found

I won't stop running now
'Til I find myself in a one horse town
Sunlit bathed in the Hollywood hills
Down a dead end street where I can't be found
