

## She Wants to Talk

Family of the Year

I cannot bear to leave  
I love you endlessly  
Come close, get inside  
Perfect a million times

I'm summer now  
Biggest blue sky  
Please don't ever die  
Pour the endless glass

Out of our minds  
And into the night  
Out of our minds  
And into the night  
With the queen of hearts

I saw a photograph  
Your life was split in half  
Young, beautiful and free  
The other tied to me

You're another now  
Deepest blue sea  
Please be proud of me  
From your endless son

Out of our minds  
And into the night  
Out of our minds  
And into the night

Out of our minds  
(I cannot bear to leave)  
And into the night  
(I love you endlessly)  
Out of our minds  
(I cannot bear to leave)  
And into the night  
(I love you endlessly)  
With the queen of hearts
