

The Coast

Family of the Year

Baby and I took the long drive back down the coast
The biggest fight last night just hung there like a ghost
Being with me you said was a risk you couldn't take
And every perfect thing you had you always had to break

We hugged the corners all alone all the way home
Trying to find the saddest songs on the radio

Oh my
You get in the way of a good time
Like you're blocking out the sunshine
Thought you were better than that, no
Oh my
You get in the way of a good time
Like you're blocking out the sunshine
Thought you were better than that, no

What do you say when everything's been said
An empty road an empty heart an empty head

We hugged the corners all alone all the way home
Trying to find the saddest songs on the radio

Oh my
You get in the way of a good time
Like you're blocking out the sunshine
Thought you were better than that, no
Oh my
You get in the way of a good time
Like you're blocking out the sunshine
Thought you were better than that, no

I don't even mind
Being alone, being alone
I don't even mind
Being alone, yeah

Oh my
You get in the way of a good time
Like you're blocking out the sunshine
Thought you were better than that, no
Oh my
You get in the way of a good time
Like you're blocking out the sunshine
Thought you were better than that, no
