

## Scream

### Famous Last Words

We've only got  
One life  
One life limited time is all we got  
So plot  
It out before it's over  
We've only got  
One life  
One life limited time is all we got  
Don't rot  
Away before it's over

I can't just sit around this stillness makes me sick  
My world it spins around I want to conquer it  
Say you're offended  
Can't defend it  
Open arms a hand descended  
Wait for the attack we can never go back

Let's live our lives up to the fullest  
Scream la da da da  
Let it out and sing this chorus  
Scream la da da da  
Let's live our lives up to the fullest  
Scream la da da da  
Let it out and sing this chorus  
Scream la da da da  
It's now or never you won't ever be the same  
Since no one else can do this for us  
Scream la da da da

We came together we can set each other free  
Under pressure the aggressor I can be  
We are the ones  
To make it done  
To make a change  
To eat the gun  
The risk is so much fun
