

Latin Fire

Fancy

I'll never be the same
I'll never win the game so easy
I feel I go astray
I feel I've lost my way, I'm freezing

I saw her standing on the rail
Coming out of fiery hell
Black as coal with Latin eyes
Her look. it took me by surprise
The ship was really crowded full
Nobody can sustain a rule
I've got to get to her and now
I've got to get to her somehow

I'll never be the same
I'll never win the game so easy
I feel I go astray
I feel I've lost my way, I'm freezing

Down and out, getting cold
Warm me with your Latin fire
Warm me up, fill me up
You're my incertical desire
All I want all I need
Is your glowing Latin fire
Every thought on your love
Throws the pressure high and higher

I'll never be the same
I'll never win the game so easy
I feel I go astray
I feel I've lost my way, I'm freezing
Oh baby I'm in love

I saw her standing on the rail
Coming out of fiery hell
Black as coal with latin eyes
Her look it took me by surprise
I'll never be the same
I'll never win the game so easy
I feel I go astray
I feel I've lost my way, I'm freezing

Down and out getting cold
Warm me with your Latin fire
Warm me up, fill me up
You're my incertical desire
All I want all I need
Is your glowing Latin fire
Every thought on your love
Throws the pressure high and higher

I'll never be the same
I'll never win the game so easy
I feel I go astray
I feel I've lost my way, I'm freezing

Warm me with your Latin fire
Warm me up, fill me up
You're my insertical desire
All I want all I need
Is your glowing Latin fire.
