

Wait By The Radio

Fancy

Painted to rising
Wind in the air
Your picture on the wall
One empty chair
One broken promise
One lonely prayer
Turn on the radio
Cause you're not here

The radio is playing
A love song
Since you've been gone
The radio keeps on playing
A love song
Play on and on
My radio plays all nights
My soul all been lost for awhile
The radio keeps on playing
A love song
A play for my soul
And wait by the radio

Kiss in the darkness
Whisper of pain
Deepest emotions wait
Living in brain
I've call the station
Please, play that song
I've sleep by the radio
The whole night long

The radio is playing
A love song
Since you've been gone
The radio keeps on playing
A love song
Play on and on
My radio plays all nights
My soul all been lost for awhile
The radio keeps on playing
A love song
A play for my soul
And wait by the radio

Waits by the radio
Waits by the radio
The radio is playing
A love song
Since you've been gone
The radio keeps on playing
A love song
Play on and on
My radio plays all nights
My soul all been lost for awhile
The radio keeps on playing
A love song
A play for my soul

And wait by the radio
