

# What A Feeling Like

Farmer Boys

Born to win  
To win and win again  
Ignore the pain inside

Blood and fame, bread and games  
Keep the masses entertained  
A dirty job that someone's gotta do  
Like me

So take me  
Break me

What a feeling like  
You never had before  
Leaves me reeling and hungering for

The crowd, it roars  
It screams for more and more  
I feel its voice inside

Loosing time, saving face  
Attacking with amazing grace  
A dirty job that no one else can do  
Like me

So take me  
Break me

What a feeling like  
You never had before  
Leaves me reeling and hungering for

A feeling like  
You never had before  
Leaves me reeling and hungering for more

What a feeling like  
You never had before  
You never had before  
Hungering for more
