## **How Can I Forget You**

## **Faron Young**

You told me to ferget I love you but you never told me how I can't tell this heart of mine stop don't love her now You say that someday there will come a time when I'll find some one new

But you don't seem to understand I'll love only you
How can I forget you just where do I start
If you know the answer won't you tell it to my heart
You've made me love you from the first day the first day that w
e've met

So darling stop and tell me how can I forget How can I forget you...
