

# An Island

Fatherson

Know me by name now  
Know me by colour  
It's all re-arranged  
This time it's over  
Feeling so busy  
Ever so busy  
Not entirely happy with business  
Watching through windows  
Covered in snow  
It's not even raining  
It's time we should go  
Back to that place where  
Our hearts felt at home  
Know that I need you  
You're never alone

But I am an island  
I am an island  
I am an island  
I am an island  
I am an island  
I am an island  
I am an island  
I am an island

Show me my hands now  
Show me with colour  
It's all re-arranged  
This time it's over  
Feeling so faithless  
Underneath stars  
Trying to reach you  
Wherever you are

I am an island  
I am an island  
I am an island  
I am an island  
I am an island  
I am an island  
I am an island  
I am an island

Know me by name now  
Know me by colour  
It's all re-arranged  
This time it's over  
Feeling so busy  
Ever so busy  
Not entirely happy with business

I'm on an island  
I'm on an island  
I'm on an island  
I'm on an island  
I'm on an island  
I'm on an island

I'm on an island  
I'm on an island
