

I've Been Around

Fats Domino

I've been around the world it's true
Searching for someone exactly like you
And finally I found a love that is true
Whoa, ho ho...

Nobody knows just how I feel
You had me spinning
Just like a spinning wheel
But finally I found
A love that is true
Whoa, ho ho...

You heard my story
You heard just what I said
A man without love
He might as well be dead
But finally I found
A love that is true
Whoa, ho ho...

I've been around the world it's true
Searching for someone exactly like you
And finally I found a love that is true
Whoa, ho ho...
