

Last Dive

Fear and the Nervous System

A bullet stole the world
That very second

My life is just a protest
My existence just a statement

A real hero fell
Oh so long ago

I was not there to help him
But you stood doing nothing

One chance
The last dive
My demon hides in plain sight

Find me find the answer
To the selfish guilt you hide
What did you feel that day
Why are you still alive?

One chance
The lost dive
My demon hides in plain sight

City to city
I feel lucky
Oh yes i feel lucky

Oh yes i feel lucky

One chance
The last dive
My demons hide in plain sight
My model world cut down in shame
Let me clean up your mistake

A dead meaning
A life not taken
I lost my soul
To save a nation

My model world cut down in shame
Let me clean up your mistake

One chance, the last dive
My demons hide in plain sight
